

THE WIDEST AFTERMARKET RANGE OF ENGINE COOLING AND CLIMATE PARTS FOR CARS, VANS AND TRUCKS

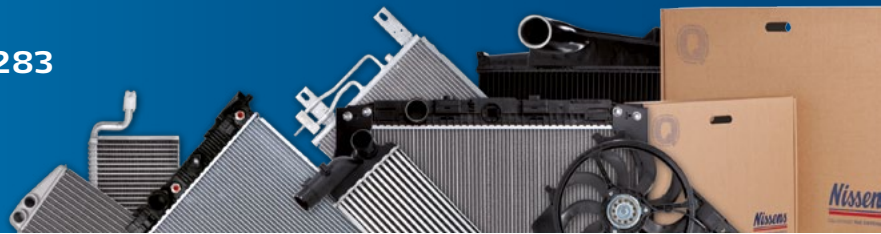

Now finally summer is here, and the heat it brings along means that especially climate parts are much in demand. So in this issue of News, Nissens presents four new condensers, supplementing our already very wide assortment.

At the same time, we launch five new radiators for for instance Alfa Romeo Giulietta, Infiniti FX35 and FX45. You will find all the other new products – heaters and intercoolers – in the June issue of Nissens News. Are you ready for more?
