

WORLD'S LARGEST PUMP MANUFACTURER

Airtex is a multi-national manufacturer established in the early 1930's, which produces water pumps and fuel pumps for the automotive sector. The Airtex European Division, known as Airtex Products, S.A.U., and based in Zaragoza, Spain, is a European market leader selling to over 70 different countries.

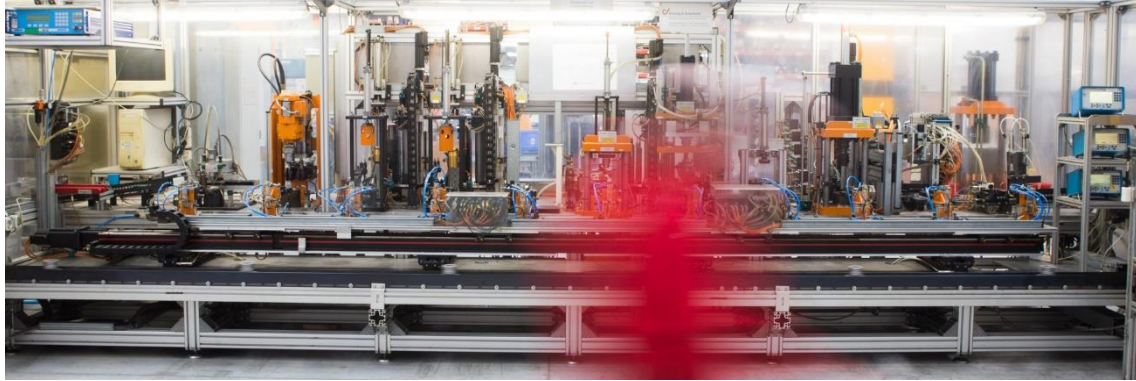

Airtex owns and operates state-of-the-art manufacturing facilities in three continents, with sites in the USA, Mexico, Spain and China. 10 Million Water Pumps and 2 Million Fuel Pumps are produced annually.

For decades **Airtex/ASC** has been a trusted OEM supplier to the world's top manufacturers such as Ford, General Motors, Chrysler, Saab, Cummins, Deutz, Perkins, John Deere, Yamaha, VW, Opel, PSA and Renault. We utilize this experience to deliver to our Aftermarket customers high quality products for passenger cars, commercial vehicles and heavy trucks all over the world.

Therefore, our mission is to provide the best solutions to our customers based on high quality products and services that are fairly priced and technology-forward.

The European Airtex manufacturing plant has been constantly growing in the last few years, and nowadays has a total capacity of more than 13.000 sqm, which includes, besides the production warehouse with its automatic, semi-automatic and manual assembly lines, several test benches for water pumps, fuel pumps and bearings. In Airtex, every manufactured pump is tested before packing it.

Our Airtex highest quality standards, push ourselves forward to give the best possible service to our customers, and therefore, we offer peace of mind 3 years' guarantee in our three product lines: water pumps, fuel pumps and timing-belt kits with water pump.

This is possible due to the highest quality requirements which are annually certified not only by OE customers, but also by official audits that grant:

- The environmental management certificate ISO14001
- The quality management certificates ISO 9001, and IATF 16949
- The Occupational Health and Safety Management OHSAS 18001

Airtex Products S.A.U., is also Q1 from Ford Motor Company.

A collection of automotive parts including a timing belt, gears, a water pump, a fuel pump, and various seals and bolts, arranged around a red Arvix box.

Eventually, we also do technical seminars for distributors and wholesalers where we help them to better understand our products and give some fitting advices about what to do or not to do when there is a problem in our vehicle.

The Airtex logo features the word "AIRTEX" in a bold, italicized, sans-serif font. Below it, the tagline "growing together" is written in a smaller, lowercase, sans-serif font. The entire logo is rendered in a vibrant red color.
